

Advanced Peel Kit

☒ WASH

This hydrating antioxidant foaming gel contains vitamins C and E that gently removes oil and debris without drying the skin.

STEP 1

STEP 1

Directions: Wet skin, apply and gently rub into a rich lather. Rinse with warm water.

RESUME: 12 days

☒ STIMULATE

This serum provides potent, daily antioxidant protection from environmental stressors. Vitamin C, E and ferulic acid help inhibit melanin synthesis, stimulate the production of collagen, nourish the skin and calm inflammation from retinoid use.

STEP 2

Directions: Apply a few drops to a clean, dry face.

RESUME: 4-6 weeks

☒ CORRECT(Rx)

This moisturizing hydroxy acid base has been compounded with arbutase and a prescription-strength retinoid to inhibit melanin production, speed up skin cell turnover and promote collagen synthesis. Store in refrigerator.

STEP 2

Directions: Apply 1 pump daily to clean, dry face.

STOP: 5 days pre peel
RESUME: 3 months, dictated by sensitivity

☒ VOLUMIZE

This moisturizer leaves skin feeling smooth and hydrated without leaving heavy or greasy residues. Ideal for all skin types including sensitive and post-procedure.

STEP 3

STEP 3

Directions: Apply 1 pump to the entire face as needed.

☒ SHIELD

This sunscreen provides physical broad-spectrum SPF 40 protection and contains antioxidants. Iron oxides provide a foundation-like coverage that aids in masking redness and imperfections.

STEP 4

Directions: Apply liberally 15 minutes before sun exposure. Reapply every 2 hours.

RESUME: 12 days, after spot test
